Professional Summary

Versatile Computer Science Senior with a deep specialization in AI/ML and a broad background in full-stack development. Co-researcher of an advanced research in AI as part of a thesis on "Data-Adaptive Transfer Learning: Using a Modified VITS with LoRA for Cebuano Speech Synthesis". Highly proficient in bridging the gap between academic theory and scalable software by combining rigorous research writing with technical expertise to deliver innovative, localized technology solutions within fast-paced, collaborative environments.

Education

University of Science and Technology of Southern Philippines | Cagayan de Oro City, Philippines | *Bachelor of Science in Computer Science*

Technical Skills

- **Programming Languages:** Python, C++, Java, PHP.
- **Frameworks & Libraries:** HTML, CSS, Javascript, Git.
- **Specializations:** AI/ML Research, Web Development, UI Prototyping, Software Development, Creative Writing, Narrative Design.
- **Professional Skills:** Project Management, Task Coordination, Research Writing, Team Collaboration.

Academic & Personal Projects

- **Data-Adaptive Transfer Learning: Using a Modified VITS with LoRA for Cebuano Speech Synthesis (Thesis):** Conducted advanced research in speech synthesis, implementing a custom training pipeline utilizing a modified VITS model with LoRA, enabling high-quality Cebuano voice generation through data-adaptive transfer learning.
- **iPara:** Created a live public transport tracking application allowing users to view moving vehicles (jeepneys and more) on a map in real time. Focused on enhancing commuter experience through location-based services and intuitive mapping features.
- **Tetris MIPS Assembly Engine:** Developed a full-featured Tetris clone in MIPS Assembly, utilizing bitmap display memory mapping and polling-based keyboard input. Implemented complex low-level logic for real-time collision detection, piece rotation, line-clearing algorithms, and a dynamic scoring system.

Experience

Wela School Systems | Cagayan de Oro City, *QA Analyst Intern* | June 2025 – July 2025
